KOWSHIKA S

UI/UX DESIGNER | FRONTEND DEVELOPER

Bengaluru | +91-9361308305 | Kowshikanathan@gmail.com | https://kowshikas.framer.website

PROFESSIONAL SUMMARY

UI/UX Designer and Frontend Developer with experience in user research, wireframing, prototyping, design systems, and responsive web development. Skilled in Figma, HTML, CSS, JavaScript, and React, with project experience in dashboards, landing pages, and web applications. Familiar with usability testing, accessibility, on-page SEO, and collaborating across design and development workflows.

CORE SKILLS

UI/UX Design: User research, usability testing, user flows, wireframes, mockups, interactive prototypes, information architecture, design systems, responsive design
Design Tools: Figma (components, auto-layout, prototyping, style guides), Framer, Canva, Photopea, Lovable
Frontend Development: HTML5, CSS3, JavaScript, React, responsive web design, component-based UI
Development Tools: Git, GitHub, Visual Studio Code, Antigravity
SEO: Keyword research, semantic HTML, meta titles and descriptions, heading structure, image optimization, alt text, page speed
Collaboration: Design handoff, requirements translation, stakeholder coordination, design iteration based on feedback

EXPERIENCE

Intern | NorthStar Academy — *4 months*
- Designed UI/UX layouts for website landing pages and dashboards in Figma, with a focus on usability, visual consistency, and responsive design.
- Developed a Link Management Website and a Fees Management Website using HTML, CSS, and JavaScript to support user workflows and interactions.
- Conducted research, translated requirements into functional interfaces, and managed code changes with GitHub; used Antigravity to support development workflows.

Design & Coordination Support | Cafe Construction — *2024–2025*
- Coordinated design and documentation across project stakeholders, translating requirements into clear, actionable specifications.

Site Coordination & Documentation | M.J. Engineering Construction — *Dec 2020–Jan 2021*
- Supported coordination and documentation for a 384-unit (G+3) residential construction project, working with technical and non-technical stakeholders.

PROJECTS

Fees Management Website | Researcher, UI/UX Designer & Frontend Developer — *Ongoing*
- Researched user needs and fee-payment workflows to define requirements and key user flows.
- Designed wireframes, high-fidelity mockups, and interactive prototypes in Figma; building the responsive frontend with HTML, CSS, JavaScript, and React.

Link Management Website | Researcher & UI/UX Designer — *Completed*
- Conducted user research and competitor analysis to identify pain points and opportunities.
- Designed responsive web UI from wireframes to final mockups and prototypes, preparing specifications and assets for development.

Academy Website | Researcher & UI/UX Designer — *Completed*
- Researched target users and comparable academy websites to shape site structure, content hierarchy, and navigation.
- Designed responsive layouts, information architecture, and interactive prototypes ready for development.

Lush Aura — Beauty Discovery App | UX Case Study
- Owned the design process from concept to responsive final product, spanning web UI, mobile UI, and brand assets.
- Conducted user research with 60+ participants and competitor analysis; 9/10 users rated navigation highly intuitive, and usability testing showed 30% faster task completion.
- Created landing pages, onboarding flows, email templates, and social media assets; used Framer as a CMS and Claude AI/ChatGPT for ideation, UX copy, and design critique.

EDUCATION

UX/UI Bootcamp | Design Boat School — *2026*
B.E., Civil Engineering | SRM Easwari Engineering College, Chennai — *2018–2022*
